Suresh san  
 Please check the schedule and let me know the  
 Total time and number of people involved  
 Including Android and IOS together  
 Did you plan the iOS and Android application together for the delivery. If  
 not there is no point or value in the plan  
 Please clarify  
 Who will do android app and Time  
 Who will do IOS app and Time  
 Who are all the other people involved and time

Davis

2 December 2019 at 09:49

Davis san,

As per the project plan you can see that the schedule starts on 02-12-2019 and planning to complete it by 31-01-2020.  
Regarding the development process Mohandas san has communicated with the outsource person Mr. Avin. He is willing to do the project both webpart and mobile development.

First of all I will create the detailed design document. After that the development will be started and we have planned to do the development of both iOS and Android together.

Hope you understood the work time split up after checking the project plan document.

I also want to talk to you regarding the CXF project development. Today I will come to office on afternoon because I have taken a half day leave in the morning.

Kindly let me the time comfortable to talk with you regarding the CXF project.

2 December 2019 at 11:02

Davis San

Key point here is 'how well we can do the design'. I think we must practice making well documented designs and get it executed outside. This is a good point to start with that.

Suresh is on half day leave today. I will be having discussions with him as soon as he comes to the office

Regards Mohandas  
PM

I understand that it our duty and ability to execute projects  
That is obvious and understood  
That is primary including all points out together when is the delivery date and that is what I want to know Execution  
and delivery has to be your capability  
That is the foundation  
I want time and delivery date to ascertain cost.

Please consider this mail as the project initiation mail.
